Double Door Operation

WHAT YOU NEED TO KNOW:

SDC's EntryControl™ operators help meet all US and Canadian ADA requirements for door installation in retail storefronts, office buildings, campuses and healthcare facilities.

The **AUTO series low energy swing door operator** provides hands-free, low-power point of entry door control for low-power retrofit of any building entrance. The state-of-the-art microprocessor-based unit is self-tuning and self-learning while offering non-handed operation, full mechanical stops and a variety of interface options for sensors, push plates, fire alarms and electrified locks.

Pre-drilled mounting holes and fixed mounting bolt for hanging drive unit while installing allows for **easy, single technician installs**.

A **built-in 1-Amp+, 24VDC internal power supply** provides for true integration with popular access and egress control hardware.

HOW YOUR CUSTOMER BENEFITS:

- Knowing act to activate
- Push or pull arm models available
- Spindle included
- Non-handed
- Slotted back plate for easy mounting
- Single button, self-tuning setup
- Auto-sensing degree of door swing
- Adjustable hard stops (if needed)
- Built-in 1 Amp power supply
- Onboard lock sequencing
- Preset dip switches for alternative functions
- External function switches
- Customizable programming for system design
- USB port to upload customized programming
- High traffic use
