

920 Series

Indoor/Outdoor Digital Keypads

SDC's EntryCheck™ 920 series

indoor/outdoor digital keypads are designed to control access of a single entry point with up to 500 users. Each user is assigned a personal identification number (PIN). Keypad entry of a valid one to six digit code activates one or both of the output relays which releases an electric door lock. Featuring heavy cast vandal resistant housing and cast metal blue backlit keys.

920P models add HID proximity reader capability to the keypad.

920PW models are designed to interface with SDC's IPPro® or most access control systems providing a standard 26-bit wiegand output.

SDC's 921P models are indoor/outdoor standalone digital keypads with proximity reader and controller (two-piece configuration), designed to control access of a single entry point with up to 500 users. Each user is assigned a proximity card and/or a personal identification number (PIN). Presentation of a proximity card or keypad entry of a code activates one or both of the output relays which releases an electric door lock.

- Digital keypad with backlit keys
- 12-key illuminated, moisture-resistant keypad
- Weather and vandal resistant housing with tactile keys
- Built-in tamper switch
- Keypad programmable
- Visual status indicators (LED)
