

COST-EFFECTIVE ACCESS CONTROL

Industrial Exit Devices w/ Factory
Installed Motorized ELR & REX

S4100

Rim Mount

S4200

Surface Vertical Rod

WHAT YOU NEED TO KNOW:

There are many different brands of cost effective commercial exit devices on the market. The vast majority of these devices are strictly mechanical. Today's market demands an **economical industrial exit device with electric latch retraction**. Not only does SDC's S4000 series of electrified industrial exit devices satisfy both market needs for a cost-effective exit device with ELR, but the **S4000 also comes standard with request-to-exit (REX) monitoring**, enabling access control compatibility.

SDC's S4000 elevates itself as the premier device in the market for a low price without compromising an inch of its superior quality.

The S4000 with factory installed motorized electric latch retraction and REX makes application as easy as **install - power - done**.

HOW YOUR CUSTOMER BENEFITS:

- Factory installed motorized electric latch retraction
- Electric dogging to hold the latch retracted
- Factory installed request-to-exit (REX)
- Stainless steel construction - corrosion resistant
- Grade 1 exit device
- Compact design for industrial applications
- Rim and surface vertical rods
- Trim options available
- Hollow metal, wood and mineral core door applications

Impact Resistant Touch Pad

SDC's COOL TOOLS YOU CAN USE ANYWHERE

Use the SDC App to send a picture with your contact information. SDC will recommend cost effective solution with product information links to retrofit the opening for access control locking hardware.

1. Snap a picture of your door opening application
2. Submit through the free SDC app
3. Receive a complete **Access & Egress electrified solution**

A silver laptop is shown from a three-quarter perspective. The screen displays the SDC website's 'COOL TOOLS YOU CAN USE' section. Several callout boxes with icons and text point to specific tools on the website: 'Door Checklist' (checkmark icon), 'Voltage & Wire Calculators' (calculator icon), 'Installation Videos' (video camera icon), and 'System Design' (circuit board icon). The website content includes a search bar, a list of tools, and a central image of an SDC toolbox.
