## HEALTHCARE MARKET APPLICATIONS

### Shared Communicating Bathrooms

SDC's CBP series communicating bathroom control packages combine CB series control switches into a mortise, cylindrical or electromagnetic lock system solution. Pre-spec'd so you don't have to. **One part number covers it all.**

Every shared bathroom package includes a riser diagram, components list, method of operation and wiring diagram to help you determine the materials and installation costs to complete your project bid.

#### PACKAGE COMPONENTS

- (2) Electrified locking devices with built-in latch status or door position status (mortise, cylindrical or electromagnetic)
- (1) System activation push button switch
- (2) Emergency access push button switches
- (1) 1.5 Amp power supply with universal relay
- (2) Power transfer hinges\*

\* Not required, not included in electromagnetic packages.

#### PACKAGE PART NUMBERS

##### MORTISE LOCKS

**CBP-ME-78** Solenoid controlled locksets with eclipse trim

**CBP-MG-78** Solenoid controlled locksets with galaxy trim

##### CYLINDRICAL LOCKS

**CBP-CE-72** Solenoid controlled locksets with eclipse trim

**CBP-CG-72** Solenoid controlled locksets with galaxy trim

##### ELECTROMAGNETIC LOCKS

**CBP-EM-81** 650lb holding force

**CBP-EM-71** 1200lb holding force

**CBP-EM-11** 1650lb holding force
